DETAILED ACTION

1. Claims 43-64 are pending. Applicant cancelled claims 1-42.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 43-53, drawn to a method of promoting intellectual property, classified in class 705, subclass 27.
 - II. Claims 54-64, drawn to a system, classified in class 709, subclass 223.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions Group I and Group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to send product information intended for purchase with a point-of-sale system.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Michael Martin (Reg. No. 24,821) on November 22, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Martin indicated it was acceptable to send the restriction requirement via the US mail system.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 571-272-6789. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alexander G. Kalinowski can be reached on 571-272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
